Rubric: Google SketchUp -The Ultimate Teenagers Room

Students will design and sketch a 3D dream bedroom using Google SketchUp. They will add features to create an amazing dream bedroom (or enough creative features that resemble their own bedroom).

Google SketchUp Dream Bedroom				
	85-100 (N/A)	**75-85 (N/A)**	**60-75 (N/A)**	**55-below (N/A)**
Drawing	85-100 3D drawing shows exceptional usage of many different Sketchup tools and understanding of perspective. REQUIRED: 4 walls + floor.	75-85 3D drawing shows considerable usage of most Sketchup tools and understanding of perspective.	60-75 Drawing shows some usage of Sketchup tools with some lack of understanding of perspective. Some objects may be in 2D.	55-below Drawing shows minimal usage of Sketchup tools with little or no understanding of perspective. Many items in 2D.
Design Elements	85-100 Many extra details were added to enhance the design. More than 3 appropriately sized hand drawn objects were added.	75-85 Some details were added to enhance the design. 3 appropriately sized hand drawn objects were added.	60-75 Some details were added but did not really enhance the design. 2 or 3 appropriately sized hand drawn objects were added.	55-below Minimal or no details were added to the design. 1 or no hand drawn objects were added.
Calculation/Use of Space	85-100 All objects are drawn using correct scale or dimensions. Dimensions, as well as calculations of perimeter and area provide for a space to easily move throughout.	75-85 Most objects are drawn using correct scale or dimension. Calculations of perimeter and area provide room for most objects to be unobstructed and provide space for moving around in.	60-75 Some objects are drawn using correct scale or dimension. Calculations of perimeter and area create very little room to easily move around in.	55-below All objects are drawn using incorrect scale or dimension. Calculations of perimeter and area create a congested space with very little room to move around comfortably in.
Creativity	85-100 Project shows outstanding evidence of student's personality and creativity. Mastery of color and use of tools are evident. Considerable effort is shown in planning and details.	75-85 Project has evidence of student's personality and creativity. Color and use of tools are evident. Effort is shown in planning and details.	60-75 Project shows little evidence of personality, creativity or effort. Little color and use of tools are evident. Little effort is shown in planning and details.	55-below Project shows no evidence of student's personality or creativity. No color or use of tools are evident. No effort is shown in planning and details.
